Q.5 (a)

You must have seen some news that Indian farmers  
commit suicide and live their lives under poverty line  
They are doomed to live a life of obscurity make a  
list of problems and causes of those problems faced  
by the farmers. Discuss ways to eliminate their problems  
and what role should government play to support farmers

Ans

India is an agrarian country with around 70% of its  
people depending directly or indirectly upon agriculture.  
But farmer's suicides in India worrying  
causes Reasons of farmer's suicide in India

①

Loan Distress ⇒ as per the National Crime Records  
Bureau 2474 out of the researched 3000 farmer suicide  
in 2015 had unpaid loans from bank interestingly,

to Popular Perception only 98% of the loans were for money lenders

② Climate change → climate change is also affecting farmers and agriculture. Uncertain monsoon systems, flash floods etc have led to crop losses, deferred monsoon

③ Lack of Awareness → while there are schemes and policies aimed at helping farmers and agriculture, a lack of awareness pushed by the literacy and digital divide in India they are unaware of the schemes or do not know how to avail of the benefits offered to them by the government.

④ Rise in input costs → there has been an overall increase in agriculture input costs. Cost of seeds and chemicals like fertilizers and pesticides, cost of labour etc

\* Solutions to prevent farmer suicide in India  
To overcome these problems first of all government should make sure that whatever subsidies and welfare schemes they announced it should reach to the farmers of small villages  
government should decrease the rate of interest

Q-6(a)

We Hear And Read About female foeticide in Remote Areas of our Country which is an Evil Practice. In Some Areas, females Are tortured for giving Birth to girl child. Take up a Project And find out the Causes Behind This Evil Practice And the measures to uproot this wrongful Practice from our Society.

Ans

Female foeticide is a medical Procedure where a female fetus is Aborted in the womb of the Pregnant woman After identifying the gender of the fetus through ultrasound. it's illegal in India.

\* Causes of female foeticide

- ① Some believe that Boys Are an investment while girls Are Economic Drainers
- ② They also Believe that Boys would grow the family's lineage And would secure their Parent's future
- ③ Some Backward families Believe that Having a Boy child is going to uplift the status of family they can Dowry in marriage
- ④ Some Believe that in a male dominated society it is Easy to bring up a Boy since the safety of the females is a big issue And so raising girls up involves Trouble

\* measures to control -

A lot of measures Have been Taken to fight Against this illegal Practice.

- ① The government of India Has initiated Education And media to reach Hospitals And clinics to increase Awareness

- ② Some Polices Provide scholarships And cash credits only to girl.
- ③ medical licensed must be Terminated with immediate effect for the practitioners who are conducting female foeticide
- ④ The Indian Medical Association Has shouldered Efforts to prevent Prenatal sex determination By Promoting "Beti-Bachao", During it's meeting And conferences.
- ⑤ The Dowry system one of the main causes of female foeticide should be Abalished from society.
